DRIVEN BY AIR.

Preset Tyre Inflator

ACCURA 10 Tried and tested, touch screen inflation

PCL

The ACCURA 10 is firmly established as the premium product for petrol forecourts, where its reliable, durable features, mixed with touch screen technology make it the safest most simple and cost-effective solution on the market.

All customers need to do is pre-set the required pressure and place the connector on the tyre, then the inbuilt auto start function does the rest. The ACCURA 10's high air flow abilities provide fast inflation, with advanced technology providing highly accurate measurements - well above industry standard 86/217/EEC. This tried and tested product enables forecourt managers to offer customers simple, safe and rapid inflation, with the benefits of extended tyre life, increased fuel economy and increased safety.

AIR

Key benefits

For the Operator:

- Consistent cost effective provision of high levels of safe air inflation services.
- Low life time costs- long product life with robust design and proven electronics.
- Low and simple maintenance
- Customisation to meet individual needs and applications
- Guaranteed accuracy with individual testing

For the Tyre User/Fleet Manager Accurate tyre pressures give:

- Extended tyre life
- Increased fuel economy
- Increased safety and reduced tyre-related incidents

Key features

- New: High flow solenoid as standard
- New: Touch screen technology
- New: High speed microprocessor
- Electronic pressure pre-set
- Auto-start inflation
- Default to safe setting
- Clear LCD display for easy readings
- Robust, high reliability and modern design
- Ceramic sensor- accuracy to ±0.5% of full scale reading
- Can inflate accurately with hoses up to 50 m in length
- Comprehensive diagnostics and error reporting additional inputs/outputs for complete customisation
- Wall or pedestal mounting.
